

# Well Done!

A selection of our references

Project / Service	Analysis + Concept	Design + Software	Installation + Commissioning	Project / Service
Control of a production line for stator casting				<ul style="list-style-type: none"> <li>• PLC programming</li> <li>• Visualization</li> <li>• Control cabinet construction</li> <li>• Networking</li> <li>• Process optimization</li> </ul>
Control of a production line for high-voltage ducts				<ul style="list-style-type: none"> <li>• PLC programming</li> <li>• Visualization</li> <li>• Control cabinet construction</li> <li>• PDE, OPC server</li> </ul>
Control of a 4 MW boiler plant				<ul style="list-style-type: none"> <li>• PLC programming</li> <li>• Visualization</li> <li>• Control cabinet construction</li> </ul>
Control of a production equipment for consumer goods				<ul style="list-style-type: none"> <li>• PLC programming</li> <li>• Visualization</li> <li>• Control cabinet construction</li> </ul>
Control of a production equipment for casting of ignition coils				<ul style="list-style-type: none"> <li>• PLC programming</li> <li>• Visualization</li> <li>• Control cabinet construction</li> <li>• IBV</li> </ul>
Modernization of the control system of a glass fiber varnishing equipment				<ul style="list-style-type: none"> <li>• PLC programming</li> <li>• Visualization</li> <li>• Control cabinet construction</li> </ul>
Control of a centerless glass grinding machine				<ul style="list-style-type: none"> <li>• PLC programming</li> <li>• Visualization</li> <li>• Optimization</li> </ul>
Implementation of an oven control system (temperature process)				<ul style="list-style-type: none"> <li>• PLC programming</li> <li>• Visualization for Windows CE</li> </ul>
Control of a ship unloading crane				<ul style="list-style-type: none"> <li>• PLC programming</li> <li>• Visualization</li> <li>• Networking</li> </ul>
Control of a packaging machine for bulk goods				<ul style="list-style-type: none"> <li>• PLC programming</li> <li>• Visualization</li> <li>• Networking</li> </ul>
